

This table identifies requirements set by the State and County public health departments which must be completed prior to the Mark West Union School District returning to a Hybrid model of in person instruction.

In an effort to keep our community informed of the progress in consideration of a return, the District will provide updates to this information as they are made available.

It is the goal of the Mark West Union School District to ensure all requirements are met as soon as possible in order to welcome our students back to campus.
